

Agenda

Using Student Achievement in Teacher Evaluation: Research and Practice

November 29, 2010

Webinar

SERVE Center at UNCG, Greensboro, NC

- Greetings and Introductions (10 minutes) — Eric S. Howard, REL-SE facilitator
- Research Presentation (10 minutes) — Dr. John Tyler will present an overview of teacher effectiveness research and the collaboration with Cincinnati Public Schools (CPS), drawing on the research in *Identifying Effective Classroom Practices Using Student Achievement Data* (Kane, Taylor, Tyler, & Wooten, 2010).
 - Q&A (10 minutes) — Dr. Tyler will address questions taken from the participants who use the “raised hands” function and who are then selected by the REL-SE facilitator. He will also address questions provided via electronic submission through the question pod and questions solicited from participants prior to the webinar.
- Research Presentation (10 minutes) — Ms. Julia Indalecio will present CPS’s perspective on the collaboration and the insights they have gained from their teacher evaluation system and the research study.
 - Q&A (10 minutes) — Ms. Indalecio will address questions taken from the participants who use the “raised hands” function and who are then selected by the REL-SE facilitator. She will also address questions provided via electronic submission through the question pod and questions solicited from participants prior to the webinar.
- Joint Discussion (10 minutes) — Dr. Tyler and Ms. Indalecio will reflect on what was learned and the road forward.
 - Q&A (10 minutes) — Dr. Tyler and Ms. Indalecio will address questions taken from the participants who use the “raised hands” function and who are then selected by the REL-SE facilitator. They will also address questions provided via electronic submission through the question pod and questions solicited from participants prior to the webinar.
- Open Forum (15 minutes) — The REL-SE facilitator will take questions for the two presenters from the participants, either through the “raised hands” function or through submission of a question via the question pod.
- Wrap-up (5 minutes) — Eric S. Howard
