

AGENDA

Research-Based Strategies for Teaching Math to Young Children

March 23, 2015

[2:00pm EDT, 11:00am PDT]

Goals and Objectives:

The overall goal of the webinar is to provide participants a more in-depth understanding of the research-based recommendations in and practical implications of the *Teaching Math to Young Children* IES practice guide. As a result of their participation, attendees will:

- Have a better understanding of the five practice guide recommendations and the research they are based on.
- Learn specific steps they can take to implement the recommendations in their schools and classrooms.
- Understand common challenges to implementation and practical, research-proven solutions.

2:00pm—2:05pm **Welcome and Housekeeping**

- Rebecca Perry, West

2:05pm—2:50pm **Practice Guide Presentation: Teaching Math to Young Children**

- Nancy Jordan, School of Education, University of Delaware

2:50pm—3:05pm **Implications for the Silicon Valley Research Alliance; Q&A**

- Rebecca Perry, WestEd

3:05pm—3:15pm **Closing, Thanks, and Survey**

- Beth Kellman, REL West at WestEd
-
