[Webinar Series]***

Scaling Technology and Infrastructure to Support the Common Core

May 13, 2014

Webinar Objectives

- *Assess each site's technology readiness.*
- *Examine costs associated with use, implementation, and scaling up.*
- *Plan for more than online testing.*
- *Prepare and plan for growth.*

2:30pm Housekeeping and Speaker Introduction

- Meg Livingston Asensio, REL West

2:40pm Presentation: *Developing Individualized Technology Plans*

- Mike Casey, Director of Technology, Del Mar (CA) Union School District

3:40pm Facilitated Q&A and Interactive Chat

- Grace Calisi, REL West; facilitator

3:50pm Closing Remarks and Feedback Survey

- Meg Livingston Asensio, REL West

4:00pm Adjourn

Presentation Description

Presenter Mike Casey, Director of Technology for the Del Mar (CA) Union School District, will share strategies and tools for assessing site readiness, examining technology infrastructure costs, and planning future growth. Participants will have opportunities to consider such key questions as: *Does your site have the infrastructure, capacity, and commitment to support your technology? Is your technology sustainable or adaptable for future needs? Is there a clear plan for effectively using the technology for teaching and learning?*
