For awards beginning in FY 2010
PART I OVERVIEW

1. IES RESEARCH AND RESEARCH TRAINING GRANT PROGRAMS
The over-arching priority of the Institute of Education Sciences (Institute) is research that contributes to improved academic achievement for all students, and particularly for those whose education prospects are hindered by inadequate education services and conditions associated with poverty, race/ethnicity, limited English proficiency, disability, and family circumstance. To address this priority, the Institute has established research and research training programs through its National Center for Education Research and its National Center for Special Education Research.

On March 23, 2009, the Institute announced in the Federal Register the research and research training grant competitions listed below. The Federal Register announcement also indicated that additional competitions would be announced later in the fiscal year. These two research initiatives (Reading for Understanding and Chronically Low-Performing Schools) are included in the list below along with the research and research training grant competitions that were listed in the Federal Register announcement.

- Education Research Programs (CFDA 84.305A)
- Special Education Research Programs (CFDA 84.324A)
- Postdoctoral Research Training Program in the Education Sciences (CFDA 84.305B)
- Postdoctoral Research Training Program in Special Education (CFDA 84.324B)
- National Research and Development Centers (CFDA 84.305C)
- Special Education Research and Development Centers (CFDA 84.324C)
- Statistical and Research Methodology in Education (CFDA 84.305D)
- Evaluation of State and Local Education Programs and Policies (CFDA 84.305E)
- Reading for Understanding Research Initiative (CFDA 84.305F)
- Chronically Low-Performing Schools Research Initiative (CFDA 84.305G)

Each program is identified by its title and a unique CFDA (Catalog of Federal Domestic Assistance) alphanumeric code. All of the National Center for Education Research programs have the numeric code 84.305, and specific programs are distinguished by alpha characters (e.g., CFDA 84.305A, Education Research Programs; CFDA 84.305E, Evaluation of State and Local Education Programs and Policies). All of the National Center for Special Education Research programs have the numeric code 84.324, and specific programs are distinguished by alpha characters (e.g., CFDA 84.324A, Special Education Research Programs).

PART II GENERAL INSTRUCTIONS

Applicants are encouraged to read all sections of this document carefully to ensure successful submission of their application. In addition to the detailed instructions provided below, this document includes two appendices: Appendix A provides information on the protection of human subjects and Appendix B describes allowable exceptions to electronic submissions of applications using Grants.gov.

2. MANDATORY SUBMISSION OF ELECTRONIC APPLICATIONS
Grant applications must be submitted electronically through the Internet using the software provided on the Grants.gov website: http://www.grants.gov/. Applicants must follow the application procedures and submission requirements described in the Institute’s Grants.gov Application Submission Guide (this document) and the instructions in the User Guide provided by Grants.gov.

Applications submitted in paper format will be rejected unless the applicant (a) qualifies for one of the allowable exceptions to the electronic submission requirement described in the Federal Register notice announcing the relevant grant competition (and in Appendix A of this document) and (b) submits, no
later than two weeks before the application deadline date, a written statement to the Institute that
documents that the applicant qualifies for one of these exceptions.

3. APPLICATION INSTRUCTIONS AND APPLICATION PACKAGE

A. Documents Needed to Prepare Applications
To complete and submit an application, applicants need to review and use three documents: (1) the
Request for Applications, (2) the IES Grants.gov Application Submission Guide, and (3) the Application
Package.

- The Request for Applications describes the substantive requirements for the application.
  ✓ Request for Applications http://ies.ed.gov/funding/

- The IES Grants.gov Application Submission Guide provides the instructions for completing and
  submitting the forms and attaching all necessary Adobe Portable Document Format (PDF) files.

The IES Grants.gov Application Submission Guide is also available on Grants.gov as part of the relevant
funding opportunity application package. Additional help navigating Grants.gov is available in the

- The Application Package provides all of the forms that need to be completed and submitted. The
  application forms approved for use by the Institute's grant competitions are found in the
government-wide SF424 Research and Related (R&R) Form family (OMB Numbers 4040-0001 and
4040-0010). The applicant must follow the directions in the Request for Applications to download the
correct Application Package from Grants.gov.
  ✓ Application Package http://grants.gov/applicants/apply_for_grants.jsp

4. APPLICATION SUBMISSION PROCESS AND DEADLINE
Applications must be submitted **electronically by 4:30:00 p.m., Washington, D.C. time** on the
application deadline date, using the standard forms in the Application Package and the instructions
provided on the Grants.gov website. Information on the application deadline date is provided in the
Request for Applications.

5. REGISTRATION PROCESS
Applicants must be registered with Grants.gov before they can apply for any grant on the Grants.gov
website.

- Grants.gov Registration: http://grants.gov/applicants/get_registered.jsp

The registration process may take five or more business days to complete. Applicants may begin working
on their application while completing the registration process, but applicants will not be permitted to
submit an application until all of the Registration Steps are complete.

Note: On the application, applicants must provide their organization's DUNS number as provided by the
Central Contractor Registry (CCR). The DUNS number must be the one that was used when their
organization registered with the CCR. Applicant organizations need to update their CCR registration
annually.

- Central Contractor Registry: http://www.ccr.gov/
6. SUBMISSION AND SUBMISSION VERIFICATION PROCESS

A. Submission
To facilitate use of Grants.gov, the Institute recommends that applicants read the submission procedures described below carefully to ensure that their application is received in a timely manner and accepted by the Institute. To submit an application, applicants must complete the appropriate application package (instructions in Part III below and in the relevant Request for Applications) and follow the directions on Grants.gov. Applicants are strongly encouraged to use the “Check Application for Errors” button at the top of the grant application package to identify errors or missing required information that can prevent an application from being processed.

The Institute strongly recommends that applicants not wait until the last day to submit an application. Grants.gov will put a date/time stamp on the application and then process it after it is fully uploaded. The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of the applicant's Internet connection; and, the time it takes Grants.gov to process the application will vary as well. If Grants.gov rejects an application, the applicant will need to resubmit successfully before 4:30:00 p.m. on the deadline date as determined by Grants.gov. As an example, if an applicant begins the submission process at 4:00:00 p.m. on the deadline date, and Grants.gov rejects the application at 4:15:00, there may not be enough time for the applicant to locate the error that caused the submission to be rejected, correct it, and then attempt to submit the application again before the 4:30:00 deadline. Applicants are strongly encouraged to begin the submission process at least three to four days before the deadline date to ensure a successful, on-time submission.

Applicants who experience technical problems submitting to Grants.gov before the closing date/time should contact Grants.gov Customer Support at 1-800-518-4726 for help or use the customer support available on the Web site: http://www.grants.gov/help/help.jsp

To document technical problems with Grants.gov, applicants must report the problem to the Grants.gov Customer Support (1-800-518-4726) and obtain a nine-digit Case Number beginning with the numeral one (e.g., 1-12345678). If an application is not submitted successfully before the deadline (4:30:00 p.m. Washington, D.C. time as determined by Grants.gov) and the applicant believes this was due to a technical error with the Grants.gov system in the submission process, the nine-digit Case Number must be provided to document that a problem was reported to Grants.gov Customer Support.

B. Submission Verification
The Institute urges applicants to verify that Grants.gov and the Institute have received the application on time and that it was validated successfully. To see the date and time that the application was received, applicants need to log on to Grants.gov and click on the "Track My Application” link. For a successful submission, the date/time received should be no later than 4:30:00 p.m. on the deadline date, AND the application status should be: Validated, Received by Agency, or Agency Tracking Number Assigned.

If the date/time received is later than 4:30:00 p.m. Washington, D.C. time on the deadline date, the application is late. If the application has a status of "Received” it is still awaiting validation by Grants.gov. Once validation is complete, the status will change either to “Validated” or “Rejected with Errors.” If the status is “Rejected with Errors,” the application has not been received successfully. Grants.gov provides information on reasons why applications may be rejected in its Frequently Asked Questions (FAQ) page and also in its Adobe Reader Error Message document.

Grants.gov Application Submission Guide

Within two days of submitting a grant application to Grants.gov, applicants will receive two email messages from Grants.gov:

- The first email message will confirm receipt of the application by the Grants.gov system and will provide the applicant with an application tracking number beginning with the word “GRANT”, for example GRANT00234567.

- The second email message will indicate that the application EITHER has been successfully validated by the system prior to transmission to the Institute OR has been rejected due to errors.

If this second email message indicates that the application, as identified by its unique application tracking number, is valid and the time of receipt was no later than 4:30:00, then the application is successful and on-time.

**Note:** Applicants should not rely solely on e-mail to confirm whether an application has been received timely and validated successfully. The Institute urges applicants to use the “Track My Application” link to verify on-time, valid submissions in addition to the confirmation emails.

Once Grants.gov validates the application and transmits it to the Institute, the applicant will receive an email from the U.S. Department of Education. The Department’s email will indicate that the application has been assigned a PR/Award number unique to the application beginning with the letter R, followed by the section of the CFDA number unique to that research competition (e.g., 305C or 324A), the fiscal year for the submission (e.g., 10 for fiscal year 2010), and finally four digits unique to the application, for example R305C10XXXX or R324A10XXXX. If the application was received after the closing date/time, the email will also indicate that the application is late and will not be given further consideration. The Institute strongly recommends that applicants begin the submission process at least three to four days in advance of the closing date to allow for a successful and timely submission.

### C. Late Applications

The Institute does not accept late applications. If an applicant experiences technical problems submitting the application through Grants.gov, the applicant must contact the Grants.gov Support Desk at 1-800-518-4726. The Grants.gov Support Desk will assign a Case Number which the applicant must keep as a record of the technical problems.

If the applicant is prevented from electronically submitting the application on the application deadline date because of technical problems with the Grants.gov system, an extension will be granted until 4:30:00 p.m. Washington, D.C. time of the following business day to enable submission of the application.

If the application is submitted after 4:30:00 p.m. Washington, D.C. time on the application deadline date, the applicant may contact the program contact listed below and provide an explanation of the technical problem experienced with Grants.gov, along with the Grants.gov Support Desk Case Number.
The application will be accepted only if it is possible to confirm that a technical problem occurred with the Grants.gov system and that the problem (as documented with the Grants.gov Support Desk) affected the applicant's ability to submit the application by 4:30:00 p.m. Washington, D.C. time on the application deadline date. The Department will contact the applicant after a determination is made on whether the application will be accepted.

7. WARNINGS AND RULES

A. Working Offline
Applicants need to be aware that whenever they download their application from Grants.gov, they will be working offline and saving data on their computer. Applicants will need to logon to Grants.gov to upload the completed document and submit the application.

B. Dial-Up Internet Connections
When using a dial-up connection to upload and submit an application, it can take significantly longer than when connected to the Internet with a high-speed connection (e.g. cable modem/DSL/T1). Although times will vary depending upon the size of the application, it can take a few minutes to a few hours to complete the grant submission using a dial-up connection.

C. Software Requirements
Applicants will need Adobe software to read and complete the application forms for submission through Grants.gov (note that this differs from prior competitions when applicants needed PureEdge software to read and complete forms). Grants.gov provides applicants the capability to verify if the applicant’s Adobe software version is compatible with Grants.gov (http://grants.gov/applicants/apply_for_grants.jsp).

D. Attaching Files
The forms included in the application package provide the means for applicants to attach Adobe Portable Document Format (PDF) files. Applicants must give a unique name to each document that they attach to the forms as Grants.gov cannot process an application that includes two or more files that have the same name. When attaching files, applicants should limit the size of their file names as lengthy file names could result in difficulties with opening and processing the application. The Institute recommends that applicants keep file names to less than 50 characters. Special characters (e.g., &,~,*,%/,#) and spaces must not be used in the file name. Applicants must use an underscore to indicate word separation in file names (e.g., my_Attached_File.pdf). Please note that if these guidelines are not followed, the application may be rejected. Finally, if the applicant is including scanned documents as part of a PDF file, the applicant should scan them at the lowest resolution to minimize the size of the file and expedite the upload process.

For awards beginning in FY 2010

8
PART III IES-SPECIFIC INSTRUCTIONS

8. APPLICATION PACKAGE AVAILABLE ON GRANTS.GOV

A. Application Package on Grants.gov
The Institute requires that applicants use the Research and Related (R&R) standard forms to prepare and submit applications. These forms are covered by OMB number 4040-0001 and OMB Number 4040-0010.

The application forms are contained in the IES application packages on Grants.gov. On March 23, 2009, the Institute announced competitions with June 25, 2009 and October 1, 2009 deadlines. The application packages for the October 1, 2009 deadline will be available beginning on August 3, 2009.

B. Download Correct Application Package
Applicants must download the application package designated for the competition and deadline date to which the applicant wishes to apply or the application will be submitted to the wrong competition. Each application package is assigned a unique title that includes the CFDA number and the deadline date for that competition. For example, an applicant must use the October package marked “CFDA 84.305A2010-2” to submit an application to the Education Research competition with the closing date of October 1, 2009. If an applicant wishes to submit an application to the Special Education Research competition with the closing date of October 1, 2009, the October package marked "CFDA 84.324A2010-2“ must be used to submit the application.

Note: If an applicant downloaded an application package for the June deadline (e.g., "CFDA 84.305A2010-1“) and then decided to delay submission of their application until the October deadline, the applicant must not use the June package. Grants.gov will not accept an application on the October deadline that is submitted using a June package. Instead, the applicant must download the October package “CFDA 84.324A2010-2“ for the October submission or the application will be rejected by Grants.gov.

9. APPLICATION CONTENT AND FORMATTING REQUIREMENTS

A. Overview
The Institute requires that applicants use the Research & Related standard forms to prepare and submit applications. The application contents – forms and attachments – described below, and summarized in section 9.H Summary of Application Content Requirements (Tables 4 and 5) represent the body of a proposal submitted to the Institute. All applications for Institute funding must be self-contained. As an example, reviewers are under no obligation to view an Internet website if the applicant includes the site address (URL) in the application.

All of the instructions and requirements regarding (a) submission of the application, (b) acceptable format, and (c) necessary attachments (PDF files) are provided in this IES Grants.gov Application Submission Guide. All of the required forms will be provided in the relevant Application Package that is available on Grants.gov.

In this section, the Institute provides instructions regarding the content of the (a) Research & Related (R&R) standard forms, (b) biographical sketches of senior/key personnel, (c) narrative budget justification, (d) human subjects narrative, and (e) additional forms.

B. Required Research & Related (R&R) Forms and Other Forms
Applicants must complete and submit the R&R forms described below. Please note that fields marked by an asterisk on these forms are required fields and must be completed to ensure a successful submission.
Note: Although not a required field, Item 4a (Federal Identifier) and b (Agency Routing Number) on the Application for Federal Assistance SF 424 (R&R) form provide critical information to the Institute and should be filled out as appropriate.

a. Application for Federal Assistance SF 424 (R&R)
This form asks for general information about the applicant, including but not limited to: contact information; an Employer Identification Number (EIN); a DUNS number; a descriptive title for the project; an indication of the project topic and, for program announcements that have explicit goals, the appropriate goal; Principal Investigator contact information; start and ending dates for the project; congressional district; total estimated project funding; and Authorized Representative contact information. Because information on this form populates selected fields of some of the other forms described below, applicants should complete this form first.

The applicant should provide the requested information using the drop down menus where they are provided. Guidance for completing selected items follows.

(i) Item 1
Type of Submission. Select either "Application" or “Changed/Corrected Application.” The Institute does not require Pre-applications for its grant competitions.

(ii) Item 2
Date Submitted. Enter the date the application is submitted to the Institute.

Applicant Identifier. Leave this blank.

(iii) Item 3
Date Received by State and State Application Identifier. Leave these items blank.

(iv) Item 4
a. Federal Identifier. Enter information in this field if this is a Resubmission and this has been marked as a “Changed/Corrected Application” under Item 1 Type of Submission. If this submission is to revise a submission to a prior grant competition that has received reviewer comments, this is considered a “Resubmission” (see Item 8 Type of Application). The applicant should enter the PR/Award number that was assigned to the prior submission (e.g., R305A090XXX or R324A080XXX) in this field.

b. Agency Routing Number. Enter the code for the topic and the goal that the application addresses in this field. Tables indicating the codes for the Institute’s topics and goals are presented below.

For awards beginning in FY 2010
Table 1: SF 424 (R&R) Item 4b

*note 1 – Goal categories do not apply to these grant programs*

Example: If the application is a Goal 2 – Development project under the Reading, Writing, and Language Development topic, enter the codes “NCSER-RWL” and “G2.”

It is critical that applicants use the appropriate codes in this field and that the topic and goal codes shown in this field agree with the topic and goal that the applicant indicates in the application abstract. Indicating the correct topic and goal facilitates the appropriate processing and review of the application. Failure to do so may result in delays to processing.

For awards beginning in FY 2010
(v) Item 5

**Applicant Information.** Enter all of the information requested, including the legal name of the applicant, the name of the primary organizational unit (e.g., school, department, division, etc.) that will undertake the activity, and the address, including the county and the nine-digit ZIP/Postal Code of the primary performance site (i.e., the Applicant institution) location. This field is required if the Project Performance Site is located in the United States. The field for "Country" is pre-populated with "USA: UNITED STATES." For applicants located in another country, contact the cognizant program officer (see section 6.C for a list of contact persons) before submitting the application. Use the drop down menus where they are provided.

**Organizational DUNS.** Enter the DUNS or DUNS+4 number of the applicant organization. If an applicant does not have a DUNS number, the applicant must obtain the number by calling 1-800-333-0505 or by completing the DUNS Number Request Form. The form can be obtained via the Internet at the following URL: [http://www.dnb.com](http://www.dnb.com).

**Person to Be Contacted on Matters Involving this Application.** Enter all of the information requested, including the name, telephone and fax numbers, and email address of the person to be contacted on matters involving this application. The role of this person is primarily for communication purposes on the budgetary aspects of the project. As an example, this may be the contact person from the applicant institution’s office of sponsored projects. Use the drop down menus where they are provided.

(vi) Item 6

**Employer Identification (EIN) or (TIN).** Enter either the Employer Identification Number (EIN) or Tax Identification Number (TIN) as assigned by the Internal Revenue Service. If the applicant is not located in the United States, enter 44-4444444.

(vii) Item 7

**Type of Applicant.** Use the drop down menu to select the type of applicant. If other, please specify.

**Small Business Organization Type.** If "Small Business" is selected as Type of Applicant, indicate whether or not the applicant is a "Women Owned" small business – a small business that is at least 51% owned by a woman or women, who also control and operate it. Also indicate whether or not the applicant is a "Socially and Economically Disadvantaged" small business, as determined by the U.S. Small Business Administration pursuant to section 8(a) of the Small Business Act U.S.C. 637(a).

(viii) Item 8

**Type of Application.** Indicate whether the application is a "New" application or a "Resubmission" of an application submitted under a previous IES competition. Only the "New" and "Resubmission" options apply to Institute competitions. Do not select any option other than "New" or "Resubmission."

**Submission to Other Agencies.** Indicate whether or not this application is being submitted to another agency or agencies. If yes, indicate the name of the agency or agencies.
(ix) Item 9

Name of Federal Agency. Do not complete this item. The name of the federal agency to which the application is being submitted will already be entered on the form.

(x) Item 10

Catalog of Federal Domestic Assistance Number. Do not complete this item. The CFDA number of the program competition to which the application is being submitted will already be entered on the form. The CFDA number can be found in the Federal Register Notice and on the face page of the Request for Applications.

(xi) Item 11

Descriptive Title of Applicant’s Project. Enter a descriptive title for the project. The maximum number of characters allowed in this item field is 200.

(xii) Item 12

Proposed Project Start Date and Ending Date. Enter the proposed start date of the project and the proposed end date of the project. The start date must not be earlier than the Earliest Anticipated Start Date listed in the Request for Applications. For October 1, 2009 applications the earliest anticipated start date is July 1, 2010.

(xiii) Item 13

Congressional District of Applicant. For both the applicant and the project, enter the Congressional District in this format: 2 character State Abbreviation - 3 character District Number (e.g., CA-005 for California's 5th district, CA-012 for California's 12th district). To locate your Congressional district, visit the Grants.gov web site. If the program/project is outside the US, enter 00-000.

(xiv) Item 14

Project Director/Principal Investigator Contact Information. Enter all of the information requested for the Project Director/Principal Investigator, including the position/title, name, address (including county), organizational affiliation (e.g., organization, department, division, etc.), telephone and fax numbers, and email address. Use the drop down menus where they are provided.

(xv) Item 15

Estimated Project Funding

a. Total Federal Funds Requested. Enter the total Federal funds requested for the entire project period.

b. Total Non-federal Funds. Enter the total Non-federal funds requested for the entire project period.

c. Total Federal & Non-Federal Funds. Enter the total estimated funds for the entire project period, including both Federal and non-Federal funds.
d. Estimated Program Income. Identify any program income estimated for the project period, if applicable.

(xvi) Item 16

Is Application Subject to Review by State Executive Order 12372 Process? The Institute is not soliciting applications that are subject to review by Executive Order 12372, therefore check the box "Program is not covered by E.O. 12372" to indicate "No" for this item.

(xvii) Item 17

This is the Authorized Representative’s electronic signature.

By providing the electronic signature, the Authorized Representative certifies:

(1) to the statements contained in the list of certifications
(2) that the statements are true, complete and accurate to the best of his/her knowledge.

By providing the electronic signature, the Authorized Representative also provides the required assurances and agrees to comply with any resulting terms if an award is accepted.

Note: The certifications and assurances referred to here are also identified below under g. Other Forms. The certifications and assurances forms are included in the Grants.gov Grant Application Package for the specific Institute Funding Opportunity.

(xviii) Item 18

SF LLL or other Explanatory Documentation. If applicable, attach the SF LLL here. See below, g. Other Forms to determine applicability.

(xix) Item 19

Authorized Representative. The Authorized Representative is the official who has the authority both to legally commit the applicant to (1) accept federal funding and (2) to execute the proposed project. Applicants enter all information requested for the Authorized Representative (AR), including the name, title, organizational affiliation (e.g., organization, department, division, etc.), address, telephone and fax numbers, and email address of the Authorized Representative. Applicants should use the drop down menus where they are provided.

Signature of Authorized Representative. Leave this item blank as it is automatically completed when the application is submitted through Grants.gov.

Date Signed. Leave this item blank as the date is automatically generated when the application is submitted through Grants.gov.

(xx) Item 20

Pre-application. Do not complete this item as the Institute does not require Pre-applications for its grant competitions.

b. Research and Related Senior/Key Person Profile (Expanded)

This form asks applicants to: identify the project director/principal investigator and other senior and/or key persons involved in the project; specify the role key staff will serve; and provide contact information
for each senior/key person identified. The form also requests information about the highest academic or professional degree or other credentials earned and the degree year. This form will allow for the attachment of a total of 40 biographical sketches: one for the project director/principal investigator and up to 39 additional sketches for senior/key staff. This form also provides the means for uploading/attaching the biographical sketches of senior/key personnel as PDF files.

c. Research & Related Project/Performance Site Location(s)
This form asks applicants to identify the primary site where project work will be performed. Applicants must complete the information for the primary site. If a portion of the project will be performed at any other site(s), the form also asks the applicant to identify and provide information about the additional site(s). As an example, a research proposal to an Institute competition may include the applicant institution as the primary site and one or more schools where data collection will take place as additional sites. The form permits the identification of seven sites in addition to the project’s primary site. This form requires the applicant to provide a DUNS number for each site and to identify the Congressional District for each site. See above, Section a. Application for Federal Assistance SF 424 (R&R), Item 13.

Note: The application will be rejected with errors if the DUNS number field is not completed for each site listed on this form. One or more schools may be listed as sites on this form; however, some school districts may not have a DUNS number. In this case, do not list the school(s) on this form; rather, provide information about these project/performance site(s) in the resources section of the project narrative (see the relevant Request for Applications for information about this section) or in the Narrative Budget Justification (see Section F Narrative Budget Justification of this guide).

d. Research & Related Other Project Information
This form asks applicants to provide information about any research that will be conducted involving Human Subjects, including: whether human subjects are involved; if human subjects are involved, whether or not the project is exempt from the human subjects regulations; if the project is exempt from the regulations, an indication of the exemption number(s); and, if the project is not exempt from the regulations, whether an Institutional Review Board review is pending; and if IRB approval has been given, the date on which the project was approved; and, the Human Subject Assurance number. This form also asks applicants whether: there is proprietary information included in the application; the project has an actual or potential impact on the environment; the research site is designated or eligible to be designated, as an historic place; and, if the project involves activities outside the U. S., to identify the countries involved.

This form provides the means for uploading/attaching a number of documents (PDF files) including the project summary/abstract, the project narrative and appendices, research on human subjects information, and bibliography and references cited.

(i) Item 1

Are Human Subjects Involved? If activities involving human subjects are planned at any time during the proposed project at any performance site or collaborating institution, applicants must check “Yes.” Applicants must check “Yes” even if the proposed project is exempt from Regulations for the Protection of Human Subjects. If there are no activities involving human subjects planned at any time during the proposed project at any performance site or collaborating institution, applicants may check “No” and skip to Item 2.

Is the Project Exempt from Federal Regulations? If all human subject activities are exempt from Human Subjects regulations, then check “Yes”.

If yes, check appropriate exemption number. Check the appropriate exemption number box or boxes corresponding to one or more of the exemption categories. The six categories of research
that qualify for exemption from coverage by the regulations are explained in Appendix A of this
guide, Information on the Protection of Human Subjects in Research.

If no, is the IRB review Pending? If the answer to the question "Are Human Subjects Involved?" is "Yes" and the project is not exempt from federal regulations, then applicants must check whether or not the Institutional Review Board (IRB) review is pending.

If an applicant checks “Yes” to the question “Is the IRB review Pending?” the next two fields “IRB Approval Date” and “Human Subject Assurance Number” are disabled and no information is to be entered. If the IRB review is pending, and the applicant has a Human Subject Assurance Number, this information may be included in the Human Subjects Research Narrative (see Item 12 of this form).

If an applicant checks “No” to the question “Is the IRB review Pending?” the next two fields “IRB Approval Date” and “Human Subject Assurance Number” become highlighted in yellow and the most recent IRB approval date and information about the Human Subject Assurance Number must be entered.

IRB Approval Date. If the IRB review is pending, this field is disabled and no information is to be entered. If IRB approval is not pending, enter the latest IRB approval date. This field requires that a date be entered if the applicant checks “No” to the question “Is IRB Approval Pending,” therefore, applicants should select “No” only if a date is available for IRB approval.

Note: IRB Approval may not be pending because the applicant has not begun the IRB process. In this case, an IRB Approval Date will not be available. However, a date must be entered in this field if “No” is selected or the application will be rejected with errors by Grants.gov. Therefore, applicants should check “Yes” to the question “Is the IRB review Pending?” if an IRB Approval date is not available.

Human Subject Assurance Number. If the IRB review is pending, leave this field blank. If the IRB approval is available, and the applicant has an approved Federal Wide Assurance (FWA) or Multiple Project Assurance (MPA) with the Office for Human Research Protections (OHRP), U.S. Department of Health and Human Services, that covers the specific activity, then the applicant must insert the number in the space provided. If the applicant does not have an approved assurance on file with OHRP, then the applicant must enter "None" as this field requires information and cannot be left blank. In this case, the applicant, by signature on the face page, is declaring that it will comply with 34 CFR 97 and proceed to obtain the human subjects assurance upon request by the designated Department of Education official. If the application is recommended/selected for funding, the designated Department of Education official will request that the applicant obtain the assurance within 30 days after the specific formal request.

(ii) Item 2

Are Vertebrate Animals used? Check whether or not vertebrate animals will be used in this project.

(iii) Item 3

Is proprietary/privileged information included in the application? Patentable ideas, trade secrets, privileged or confidential commercial or financial information, disclosure of which may harm the applicant, should be included in applications only when such information is necessary to convey an understanding of the proposed project. If the application includes such information, check “Yes” and clearly mark each line or paragraph on the pages containing the proprietary/privileged
information with a legend similar to: “The following contains proprietary/privileged information that (name of applicant) requests not be released to persons outside the Government, except for purposes of review and evaluation.”

(iv) Item 4

Does this project have an actual or potential impact on the environment? Check whether or not this project will have an actual or potential impact on the environment.

(v) Item 5

Is the research site designated, or eligible to be designated as a historic place? Check whether or not the research site is designated, or eligible to be designated as a historic place. Explain if necessary.

(vi) Item 6

Does the project involve activities outside of the United States or partnerships with international collaborators? Check “yes” or “no.” If the answer is “yes,” then the applicant needs to identify the countries with which international cooperative activities are involved. An explanation of these international activities or partnerships is optional.

(vii) Item 7.

Project Summary/Abstract. Attach the Project Summary/Abstract as a PDF file here.

(viii) Item 8.

Project Narrative. Create a single PDF file that contains the Project Narrative as well as Appendix A, and, where applicable, Appendix B. Attach that single PDF file here.

(ix) Item 9.

Bibliography and References Cited. Attach the Bibliography and References Cited as a PDF file here.

(x) Item 10.

Facilities and Other Resources. The Institute does not want an attachment here. Explanatory information about facilities and other resources must be included in the project narrative section of the application and may also be included in the narrative budget justification. In the project narrative of competitive proposals, applicants describe having access to institutional resources that adequately support research activities and access to schools in which to conduct the research. Strong applications document the availability and cooperation of the schools or other education delivery settings that will be required to carry out the research proposed in the application via a letter of support from the education organization.

(xi) Item 11.

Equipment. The Institute does not want an attachment here. Explanatory information about equipment may be included in the narrative budget justification.
Item 12.

Other Attachments. This item provides the means for attaching a Human Subjects Research Narrative. Applicants must attach either an Exempt Research on Human Subjects Narrative or a Non-Exempt Research on Human Subjects Narrative as a PDF file here.

If the applicant checked “Yes” to Item 1 of this form “Are Human Subjects Involved?” and designated an exemption number(s), then the applicant must provide an “Exempt Research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by the Department of Education that the designated exemption(s) are appropriate. Although no specific page limitation applies to this PDF document, the applicant should be succinct.

If some or all of the planned research activities are covered by (not exempt from) the Human Subjects Regulations, then the applicant must provide a “Nonexempt Research” narrative. The narrative must address seven points: 1) Human Subjects Involvement and Characteristics; 2) Sources of Materials; 3) Recruitment and Informed Consent; 4) Potential Risks; 5) Protection Against Risk; 6) Importance of the Knowledge to be Gained; and 7) Collaborating Sites. Although no specific page limitation applies to this PDF document, the applicant should be succinct. Note that the Department of Education does not require certification of Institutional Review Board approval with the application. However, if an application that involves non-exempt human subjects research is recommended/selected for funding, the designated Department of Education official will request that the applicant obtain and send the certification to the Department within 30 days after the formal request.

See Appendix A of this guide Information on the Protection of Human Subjects in Research for more information about the content of the Human Subjects Narrative.

e. Research & Related Budget (Total Federal + Non-Federal) — Sections A & B; C, D, & E; and F-K

This form asks applicants to provide detailed budget information for each year of support requested. The form also asks applicants to indicate any non-federal funds supporting the project. Applicants should provide this budget information for each project year using all sections of the R&R Budget form. Applicants should note that the budget form has multiple sections for each budget year: A & B; C, D, & E; and F-K.

- Sections A & B ask for information about Senior/Key Persons and Other Personnel
- Sections C, D & E ask for information about Equipment, Travel, and Participant/Trainee Costs
- Sections F - K ask for information about Other Direct Costs and Indirect Costs

Applicants must complete each of these sections for as many budget periods as they are requesting funds and attach the narrative budget justification for all of the project budget years at Section K of the first budget period.

Enter the Federal Funds requested for all budget line items as instructed below. If any Non-Federal funds will be contributed to the project, enter the amount of those funds for the relevant budget categories in the spaces provided.

All fields asking for total funds in this form will auto calculate.
(i) **Organizational DUNS.**
If you completed the Application for Federal Assistance SF 424 R&R first, then the DUNS number will be pre-populated here. Otherwise, enter the organizational DUNS number here. See section B.a. Application for Federal Assistance SF 424 (R&R) for information on the DUNS number.

(ii) **Budget Type.**
Check the appropriate box for type of budget, either “Project” or “Subaward/Consortium.” The “Project” budget should be checked as this is the budget requested for the primary applicant organization. If the project involves a subaward(s), applicants must access the R&R Subaward Budget (Fed/Non-Fed) Attachment(s) Form to complete a subaward budget (see section f. below for instructions regarding budgets for a subaward).

(iii) **Budget Period Information.**
Enter the start date and the end date for each particular budget period. The system permits data entry for up to five budget periods; however, enter only the number of budget periods allowed for the project as detailed in the relevant Request for Applications.

(iv) **Budget Section A. Senior/Key Person and Section B. Other Personnel**

A. **Senior/Key Person.** The project director/principal investigator information will be pre-populated here from the SF 424 R&R Application for Federal Assistance form. Then, enter all of the information requested for each of the remaining senior/key personnel, including the project role of each and the number of months each will devote to the project, i.e., calendar, academic, summer. The Institute requests that applicants enter the annual compensation (base salary – dollars) paid by the employer for each senior/key person; however, applicants may choose to leave this field blank. Regardless of the number of months devoted to the project, indicate only the amount of salary being requested for each budget period for each senior/key person. Enter applicable fringe benefits, if any, for each senior/key person. Enter the Federal dollars and, if applicable, the Non-Federal dollars.

B. **Other Personnel.** Enter all of the information requested for each project role listed – for example Post Doctoral Associates, Graduate Students, Undergraduate Students, Secretary/Clerical, etc. – including, for each project role, the number of personnel proposed and the number of months devoted to the project (calendar, academic, summer). Regardless of the number of months devoted to the project, indicate only the amount of salary/wages being requested for each project role. Enter applicable fringe benefits, if any, for each project role category. Enter the Federal dollars and, if applicable, the Non-Federal dollars.

**Total Salary, Wages, and Fringe Benefits (A + B).** This total will auto calculate.

(v) **Budget Section C. Equipment Description, Section D. Travel, and Section E. Participant/Trainee Support Costs**

**Equipment Description.** Enter all of the information requested for Equipment. Equipment is defined as an item of property that has an acquisition cost of $5,000 or more (unless the organization has established lower levels) and an expected service life of more than one year. List each item of equipment separately and justify each in the narrative budget justification. Allowable items ordinarily will be limited to research equipment and apparatus not already available for the conduct of the work. General-purpose equipment, such as a personal computer, is not eligible for support unless primarily or exclusively used in the actual conduct of scientific research. Enter the Federal dollars and, if applicable, the Non-Federal dollars.
**Total C. Equipment.** This total will auto calculate.

**Travel.** Enter all of the information requested for Travel.

Enter the total funds requested for domestic travel. Domestic travel includes Canada, Mexico and US Possessions. In the narrative budget justification, include the purpose, destination, dates of travel (if known), applicable per diem rate, and number of individuals for each trip. If the dates of travel are not known, specify the estimated length of the trip (e.g., 3 days). Enter the Federal dollars and, if applicable, the Non-Federal dollars.

Enter the total funds requested for foreign travel. Foreign travel includes any travel outside of North America and/or US Possessions. In the narrative budget justification, include the purpose, destination, dates of travel (if known), applicable per diem rate, and number of individuals for each trip. If the dates of travel are not known, specify the estimated length of the trip (e.g., 3 days). Enter the Federal dollars and, if applicable, the Non-Federal dollars.

**Total D. Travel Costs.** This total will auto calculate.

**Participant/Trainee Support Costs.** If applicable to the project proposed, enter the funds requested for Participant/Trainee Support Costs, by category.

Note: **This item is applicable only for training grants.** As an example, if costs are included in the budget for stipends to be paid to teachers for participation in the research funded in a discretionary grant, then this information should be entered under Section F “Other Direct Costs.”

**Number of Participants/Trainees.** Enter the number of participants/trainees.

**Total E. Participants/Trainee Support Costs.** This total will auto calculate.

(vi) **Budget Section F. Other Direct Costs.**

Enter all of the information requested under the various cost categories. Enter the Federal dollars and, if applicable, the Non-Federal dollars.

**Other Direct Costs – Materials and Supplies.** Enter the total funds requested for materials and supplies. In the budget justification, indicate the general categories of supplies, including an amount for each category. Categories less than $1,000 are not required to be itemized.

**Other Direct Costs – Publication Costs.** Enter the total publication funds requested. The proposed budget may request funds for the costs of documenting, preparing, publishing or otherwise making available to others the findings and products of the work conducted under the award. In the narrative budget justification, include supporting information.

**Other Direct Costs – Consultant Services.** Enter the total costs for all consultant services. In the narrative budget justification, identify each consultant, the services he/she will perform, total number of days, travel costs, and total estimated costs.

**Other Direct Costs – ADP/Computer Services.** Enter the total funds requested for ADP/computer services. The cost of computer services, including computer-based retrieval of scientific, technical, and education information may be requested. In the budget justification, include the established computer service rates at the proposing organization if applicable.
Other Direct Costs – Subaward/Consortium/Contractual Costs. Enter the total funds requested for: 1) all subaward/consortium organization(s) proposed for the project and 2) any other contractual costs proposed for the project. Use the R&R Subaward Budget Attachment(s) form to provide detailed subaward information. See below, section f. R&R Subaward Budget Attachment(s) Form.

Other Direct Costs – Equipment or Facility Rental/User Fees. Enter the total funds requested for equipment or facility rental/user fees. In the narrative budget justification, identify each rental user fee and justify.

Other Direct Costs – Alterations and Renovations. Leave this field blank. The Institute does not provide funds for construction costs.

Other Direct Costs – Other. Describe any other direct costs in the space provided and enter the total funds requested for this “other” category of direct costs. Use the budget justification to further itemize and justify. For postdoctoral training grants, funds requested for recruitment of fellows and cost of research by fellows should be entered here.

Total F. Other Direct Costs. This total will auto calculate.

(vii) Budget Section G. Direct Costs

Total Direct Costs (A thru F). This total will auto calculate.

(viii) Budget Section H. Indirect Costs

Enter all of the information requested for Indirect Costs. Principal investigators should note that if they are requesting reimbursement for indirect costs, this information is to be completed by their Business Office.

Indirect Cost Type. Indicate the type of base (e.g., Salary & Wages, Modified Total Direct Costs, Other [explain]). In addition, indicate if the Indirect Cost type is Off-site. If more than one rate/base is involved, use separate lines for each.

If an applicant does not have a current indirect rate(s) approved by a Federal agency, then the applicant must indicate "None--will negotiate". See a discussion of the indirect cost rate topic below under section F. Narrative Budget Justification and use the budget justification if additional space is needed to explain.

Indirect Cost Rate (%). Indicate the most recent Indirect Cost rate(s) (also known as Facilities & Administrative Costs [F&A]) established with the cognizant Federal office, or in the case of for-profit organizations, the rate(s) established with the appropriate agency.

If the applicant has a cognizant/oversight agency and is selected for an award, the applicant must submit the indirect cost rate proposal to that office for approval. If the applicant does not have a cognizant/oversight agency, the applicant must contact the U.S. Department of Education's Indirect Cost group in the Office of the Chief Financial Officer. To contact a group member, consult the telephone list at the following web page:
http://www.ed.gov/about/offices/list/ocfo/fipao/icgreps.html

Indirect Cost Base ($). Enter the amount of the base (dollars) for each indirect cost type.

For awards beginning in FY 2010
Indirect Cost Funds Requested. Enter the funds requested (Federal dollars and, if applicable, the Non-Federal dollars) for each indirect cost type.

Cognizant Agency. Enter the name of the Federal agency responsible for approving the indirect cost rate(s) for the applicant. Enter the name and telephone number of the individual responsible for negotiating their indirect cost rate. If a Cognizant Agency is not known, enter “None.”

Note: Depending on the grant program to which the applicant is applying and/or the applicant’s approved Indirect Cost Rate Agreement, some direct cost budget categories in the applicant’s grant application budget may not be included in the base and multiplied by the indirect cost rate. Use the narrative budget justification to explain which costs are included and which costs are excluded from the base to which the indirect cost rate is applied. If an applicant is selected for an award, the Institute will request a copy of the applicant’s approved Indirect Cost Rate Agreement.

When calculating indirect costs for "Training Grants" or grants under "Restricted Rate" programs, refer to the questions and answers at the Department of Education’s website: http://www.ed.gov/about/offices/list/ocfo/fipao/faq.html. See especially Questions 16 and 17.

Total H. Indirect Costs. This total will auto calculate.

(ix) Budget Section I. Total Direct and Indirect Costs
Total Direct and Indirect Costs (G + H). This total will auto calculate.

(x) Budget Section J. Fee.
Generally, a fee is not allowed on a grant or cooperative agreement.

(xi) Budget Section K. Budget Justification
Budget Section K provides the means for attaching the Narrative Budget Justification. Provide the Narrative Budget Justification as a PDF file attachment at Section K of the first budget period. Note that if the justification is not attached at Section K of the first budget period, the applicant will be unable to access the form for the second budget period. The narrative must provide a budget justification for each year of the entire project.

(xii) Cumulative Budget. This section will auto calculate all cost categories for all budget periods included.

f. R&R Subaward Budget (Fed/Non-Fed) Attachment(s) Form

With this form, the applicant both extracts and attaches the Research & Related Budget (Total Fed + Non-Fed) form that is to be used by the institution(s) that will hold a subaward on the grant. Please note that separate budgets are required only for subawardee/consortium organizations that perform a substantive portion of the project. The applicant may extract and attach up to 10 subaward budgets. When the applicant uses the button “Click here to extract the R&R Budget (Fed/Non-Fed) Attachment,” a Research & Related Budget (Total Fed + Non-Fed) form will open. Each institution that will hold a subaward must complete one of these forms.

“Subaward/Consortium” must be selected as the Budget Type, and all sections of the budget form for each project year must be completed in accordance with the R&R (Federal/Non-Federal) Budget instructions provided above in section e. Research & Related Budget (Total Federal + Non-Federal) —
Sections A & B; C, D, & E; and F-K. Note that subaward organizations are also required to provide their DUNS or DUNS+4 number.

The subawardee institution must save the budget form as a PDF file with the name of the subawardee organization. Once each subawardee institution has completed the form, the applicant must attach these completed subaward budget form files to the grant submission using the R&R Subaward Budget (Fed/Non-Fed) Attachment(s) Form. Each subaward budget form file attached to this form must have a unique name.

g. Other Forms Included in the Application Package

Applicants are required to submit the first two forms identified here. Applicants are not required to submit the third form, Disclosure of Lobbying Activities – Standard Form LLL, unless it is applicable. To determine applicability, please review the provisions in Item 1 “Lobbying” of the ED 80-0013 – Combined Assurance Form.

(1) SF 424B-Assurances-Non-Construction Programs
(2) ED 80-0013 – Combined Assurance
(3) Disclosure of Lobbying Activities – Standard Form LLL (if applicable)

These forms are available in the Grants.gov Grant Application Package for the specific Institute Funding Opportunity. Please submit them with the other pieces of the application as instructed.

Note: The Institute will also require a Protection of Human Research Subjects assurance and/or Institutional Review Board certification, as appropriate. That documentation need not be submitted with this application package.

C. Summary Descriptions of PDF Attachments to R&R Forms

To complete the application, applicants must submit the following as individual attachments to the R&R forms in Adobe Portable Document Format (PDF):

(1) Project summary/abstract;
(2) Project narrative, Appendix A, and if applicable, Appendix B (all together as one PDF);
(3) Research on Human Subjects information (i.e., Exempt or Non-Exempt Research Narrative);
(4) Bibliography and references cited;
(5) Biographical sketches of senior/key personnel;
(6) Narrative budget justification for the Project budget, and for the Subaward/Consortium budget(s), if applicable; and
(7) Subaward budget(s), if applicable.

Information about the requirements relative to each of these attachments is provided below.

D. General Format Requirements for PDF Attachments to R&R Forms

Margin, format, and font size requirements for the PDF attachments listed above are described here. See the relevant Request for Applications for additional information about the content and page limits for the (a) project (training program) summary/abstract, (b) project (training program) narrative, (c) appendix A, (d) appendix B, and (e) the bibliography and references cited.

a. Page and margin specifications
For all Institute research and research training grant applications, a “page” is 8.5 in. x 11 in., on one side only, with 1 inch margins at the top, bottom, and both sides.
b. Spacing
Text must be single spaced.

c. Type size (font size)
Type must conform to the following three requirements:

- The height of the letters must not be smaller than a type size of 12 point.
- Type density, including characters and spaces, must be no more than 15 characters per inch (cpi).
  For proportional spacing, the average for any representative section of text must not exceed 15 cpi.
- Type size must yield no more than 6 lines of type within a vertical inch.

Applicants should check the type size using a standard device for measuring type size, rather than relying on the font selected for a particular word processing/printer combination. The type size used must conform to all three requirements. Small type size makes it difficult for reviewers to read the application; consequently, the use of small type will be grounds for the Institute to return the application without peer review.

Adherence to type size and line spacing requirements is necessary so that no applicant will have an unfair advantage, by using small type or by providing more text in their applications. **These requirements apply to the PDF file as submitted.** As a practical matter, applicants who use a 12-point Times New Roman font without compressing, kerning, condensing or other alterations typically meet these requirements.

Figures, charts, tables, and figure legends may be in a smaller type size but must be readily legible.

d. Graphs, Diagrams, and Tables
Applicants must use only black and white in graphs, diagrams, tables, and charts. The application must contain only material that reproduces well when photocopied in black and white.

E. Biographical Sketches of Senior/Key Personnel

a. Submission
Each sketch will be submitted as a separate PDF attachment.

b. Page limitations and format requirements
A biographical sketch should be provided for the principal investigator and other key personnel. Each investigator must have a biographical sketch (e.g., abbreviated curriculum vitae) that is no longer than four pages. In addition to this 4-page sketch for each of the investigators, a fifth page must also be included for each investigator that lists his/her current and pending grants. The biographical sketch and the list of current and pending grants must adhere to the margin, format, and font size requirements described above. Each sketch and its accompanying list are to be combined into a single PDF file, one for each of the project personnel (PI and all co-PIs).

c. Content
Each biographical sketch should include information sufficient to demonstrate that personnel possess training and expertise commensurate with their specified duties on the proposed project (e.g., publications, grants, relevant research experience) and have adequate time devoted to the project to carry out their duties. Applicants are reminded to review information in the Request for Applications regarding Designation of Principal Investigator.

d. List of current and pending grants
Applicants should provide a list of all current and pending grants along with the proportion of the individual’s time, expressed as annual percent effort, allocated to each project for the principal
investigator and other key personnel for the project. This information is to be provided as a table attached to the biographical sketch and does not count against the 4-page limit (i.e., a biographical sketch can be four pages with an additional fifth page containing the list of current/pending grants in table form).

Note: Each senior/key person must include the proposed research project as one of his/her pending grants in this list.

F. Narrative Budget Justification

a. Submission
The section will be submitted as a PDF attachment at Section K of the first project period of the Research & Related Budget (SF 424) Sections A & B; C, D, & E; and F-K form for the Project. For grant submissions with a subaward(s), a separate narrative budget justification for each subaward must be submitted and attached at Section K of the Research & Related Budget (SF 424) form for the specific Subaward/Consortium.

b. Page limitations and format requirements
There are no page limitations for the narrative budget justification. The narrative budget justification must adhere to the margin, format, and font size requirements described above.

c. Content
A narrative budget justification must be submitted for the Project budget, and a separate narrative budget justification must be submitted for any subaward budgets included in the grant submission. Each narrative budget justification should provide sufficient detail to allow reviewers to judge whether reasonable costs have been attributed to the project and its subawards, if applicable. The budget justification should correspond to the itemized breakdown of project costs that is provided in the corresponding Research & Related Budget (SF 424) Sections A & B; C, D, & E; and F-K form for each year of the project. The narrative should include the time commitments for key personnel expressed as annual percent effort (i.e., calculated over a 12-month period) and brief descriptions of the responsibilities of key personnel. For consultants, the narrative should include the number of days of anticipated consultation, the expected rate of compensation, travel, per diem, and other related costs. A justification for equipment purchase, supplies, travel (including information regarding number of days of travel, mode of transportation, per diem rates, number of travelers, etc.), and other related project costs should also be provided in the budget narrative for each project year outlined in the Research & Related Budget (SF 424).

d. Indirect cost rate
Applicants must use their institution’s federal indirect cost rate and use the off-campus indirect cost rate where appropriate (see instructions in the relevant Request for Applications under Special Requirements).

For applications to the Postdoctoral Research Training Program in the Education Sciences (84.305B) and Postdoctoral Research Training Program in Special Education (84.324B) programs, applicants are advised that U.S. Department of Education policy (34 CFR 75.562 (c)(2)) limits indirect cost reimbursement on a training grant to the recipient’s actual indirect costs, as determined by its negotiated indirect cost rate agreement, or eight percent of a modified total direct cost base, whichever amount is less. For the purposes of the Postdoctoral Research Training Program in the Education Sciences (84.305B) and Postdoctoral Research Training Program in Special Education (84.324B) competitions, a modified total direct cost base is defined as total direct costs less stipends, tuition and related fees, and capital expenditures of $5,000 or more.

An indirect cost rate agreement from a cognizant federal agency must be in place at the time of the award in order for a grantee to claim indirect costs. If a grantee does not have an indirect cost rate
agreement from a cognizant federal agency in place, then a temporary indirect cost rate, recognized by the Federal Government, will be established. Department of Education final regulations published in the Federal Register on December 7, 2007, provide a temporary indirect cost rate to a grantee that does not have a federally recognized indirect cost rate on the date the Department awards its first grant. The temporary rate for such a grantee will be 10 percent of the direct salaries and wages of the project. These regulations permit the use of a temporary indirect cost rate under the grant award for the first 90 days after the date the Department issues the Grant Award Notification. A grantee may continue to charge indirect costs at the temporary rate after the first 90 days if the grantee submits a formal indirect cost proposal to its cognizant agency within those 90 days. If, after the 90-day period, a grantee has not submitted an indirect cost proposal to its cognizant agency, it must stop using the temporary rate. After that period, the grantee will not be allowed to charge any indirect costs to its grant until it obtains a federally recognized indirect cost rate from its cognizant agency.

Applicants that do not have a federally negotiated indirect cost rate may obtain information at http://www.ed.gov/about/offices/list/ocfo/fipao/icgreps.html or by contacting the U.S. Department of Education’s Office of the Chief Financial Officer, Indirect Cost Group. To contact a group member, consult the telephone list at the following web page: http://www.ed.gov/about/offices/list/ocfo/fipao/icgreps.html

G. Subaward Budget

a. Submission
The subaward budget(s) will be submitted using the R&R Subaward Budget (Federal/Non-Federal) Attachment(s) Form. Please note that separate budgets are required only for subawardee/consortium organizations that perform a substantive portion of the project.

b. Page Limitations and Format Requirements
There are no page limits or formatting requirements.

c. Content
A subaward(s) for work conducted at a collaborating institution(s) should be included when the collaborating institution is conducting a substantive portion of the work on the project. For each subaward, applicants must complete and submit as an attachment a Research & Related Budget (SF 424) Sections A & B; C, D, & E; and F-K form using the R&R Subaward Budget (Federal/Non-Federal) Attachment(s) Form.

The Subaward Budget (Federal/Non-Federal) Attachment(s) Form allows the applicant to extract an embedded R&R Budget form in Adobe format. By clicking the button on the Attachments form, the applicant will be able to access and save the R&R budget form file, which can then be forwarded to a subaward organization(s) to complete. After the subaward organization completes the form, that organization will return the form to the applicant to attach at the appropriate place on the R & R Subaward Budget (Federal/Non-Federal) Attachments(s) Form, which allows the attachment of up to ten subaward budgets.
H. Summary of Application Content Requirements

Table 4 lists all of the components of an application.

APPENDIX A INFORMATION ON THE PROTECTION OF HUMAN SUBJECTS IN RESEARCH

This appendix provides information on the U.S. Department of Education’s Regulations for the Protection of Human Subjects.

A. Definitions

A research activity involves human subjects if the activity is research, as defined in the Department’s regulations, and the research activity will involve use of human subjects, as defined in the regulations.

a. Research

The Department of Education’s Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research. Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

b. Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.”

(i) Data through intervention or interaction with the individual.

If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.

(ii) Identifiable private information.

If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met. Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).

B. Exemptions

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of exemptions are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects’
responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. *If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed.* (Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.)

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine:
(a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

C. Instructions for Exempt Human Subjects Research Narratives
If an applicant checks “Yes” to the question “Are Human Subjects Involved?” and designates an exemption number(s), then the applicant must provide “exempt research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by the Department that the designated exemption(s) are appropriate. The narrative must be succinct.

D. Instructions for Non-exempt Human Subjects Research Narratives
If some or all of the planned research activities are covered (not exempt) from the Human Subjects Regulations, an applicant must provide “nonexempt research” narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

a. Human Subjects Involvement and Characteristics
Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with
disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

b. **Sources of Materials**
Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

c. **Recruitment and Informed Consent**
Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

d. **Potential Risks**
Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

e. **Protection Against Risk**
Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

f. **Importance of the Knowledge to be Gained**
Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

g. **Collaborating Site(s)**
If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

E. **Where to Find Information**

For awards beginning in FY 2010
Appendix B Allowable Exceptions to Electronic Submissions

An applicant qualifies for an exception to the electronic submission requirement and may submit an application in paper format if the applicant is unable to submit the application through the Grants.gov system because:

(a) the applicant does not have access to the Internet; or
(b) the applicant does not have the capacity to upload large documents to the Grants.gov system;

and

(c) no later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar date before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), the applicant mails or faxes a written statement to the Institute explaining which of the two grounds for an exception prevents the applicant from using the Internet to submit the application.

If the applicant mails the written statement to the Institute, it must be postmarked no later than two weeks before the application deadline date. If the applicant faxes the written statement to the Institute, the faxed statement must be received no later than two weeks before the application deadline date.

The written statement should be addressed and mailed or faxed to:

Elizabeth T. Payer
Office of Administration and Policy
Institute of Education Sciences
U.S. Department of Education
555 New Jersey Avenue, NW, Suite 602
Washington, D.C. 20208

FAX: (202) 219-1466

1. Applications Sent by Mail

Applicants who request and qualify for an exception to the electronic submission requirement may submit an application via mail, commercial carrier or hand delivery.

To submit an application by mail, applicants must mail the original and two copies of the application on or before the deadline date to the address below:

U.S. Department of Education
Application Control Center Attention: CFDA# (insert appropriate CFDA number, including suffix letter, if any)
LBJ Basement Level 1
400 Maryland Avenue, S.W.
Washington, D.C. 20202 – 4260

Applicants must show one of the following as proof of mailing:

(1) A legibly dated U. S. Postal Service Postmark.
(2) A legible mail receipt with the date of mailing stamped by the U. S. Postal Service.
(3) A dated shipping label, invoice, or receipt from a commercial carrier.
(4) Any other proof of mailing acceptable to the U.S. Secretary of Education.

The Institute does not accept either of the following as proof of mailing through the U.S. Postal Service:
Applications should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, applicants should check with the local post office.

If your application is postmarked after the application deadline date, we will not consider your application.

The Application Control Center will mail the applicant a notification of receipt of the grant application. If this notification is not received within 15 business days from the application deadline date, call the U.S. Department of Education Application Control Center at (202) 245-6288.

2. Applications Delivered by Hand

To submit an application by hand, applicants or their courier must hand deliver the original and two copies of the application by 4:30:00 p.m. (Washington, D.C. time) on or before the deadline date. Applications that are hand delivered should be delivered to:

   U.S. Department of Education
   Application Control Center
   Attention: CFDA# (insert appropriate CFDA number, including suffix letter, if any)
   550 12th Street, S.W.
   Potomac Center Plaza - Room 7041
   Washington, D.C. 20202 – 4260

The Application Control Center accepts application deliveries daily between 8:00 a.m. and 4:30:00 p.m. (Washington, D.C. time), except Saturdays, Sundays and federal holidays.
