

College and Career Readiness Profiles of High School Graduates

AMERICAN SAMOA

REL Pacific's recent study, *College and Career Readiness Profiles of High School Graduates in American Samoa and the Northern Mariana Islands*, provides policymakers, practitioners, researchers, and other stakeholders with a comprehensive profile of the college and career readiness of high school graduates. The study also examines which indicators of college and career readiness are available in these two jurisdictions. The following infographic illustrates the college and career profiles of high school graduates in American Samoa in school year (SY) 2012–2013.

5 Key Indicators

1 NUMBER OF HIGH SCHOOL GRADUATES

843

HIGH SCHOOL GRADUATES
IN SY 2012–13*

* On-time graduation rate, an indicator of college and career readiness, was unavailable in American Samoa because longitudinal data that tracked student's transfer and dropout throughout the system were unavailable.
