

Kindergarten Individual Development Survey Data Use Workshop

March 8, 2018

2:30–3:30 p.m. CT

**Association for Supervision and Curriculum Development preK and
Kindergarten Conference**

Renaissance Schaumburg Convention Center Hotel

1551 Thoreau Dr. N

Schaumburg, IL 60173

Agenda

Meeting Outcome:

The goal of this workshop is to provide opportunities for Illinois kindergarten teachers to interpret and analyze Kindergarten Individual Development Survey (KIDS) data to set educational goals.

2:30–2:40 p.m.

Welcome, Introductions, and Agenda

Welcome the participants, introduce the REL Midwest staff, and explain what REL Midwest does.

Present the agenda for the meeting.

2:40–2:45 p.m.

Kindergarten Readiness Assessments and KIDS: Application and Utility

Describe appropriate uses and misuses of KRAs for state policymakers, district leaders, and teachers.

2:45–2:47 p.m.

Review the KIDS Data Use Assessment Cycle

2:47–2:55 p.m.

Reviewing KIDStech Report Options

Present the three types of reports that can be created in KIDStech, the system used to enter KIDS data.

2:55–3:25 p.m.

**Interpreting KIDS Data and Setting Educational Goals:
An Example**

Participants will work in table groups to interpret and analyze the classroom data in a sample report. Participants will discuss with their table group what stands out to them and what strengths and areas of need they notice. Table groups will have a chance to share their thoughts with the whole workshop group and answer follow-up questions.

Participants will use the same sample report and the handout guides to set goals, develop action steps, and discuss how they would monitor progress. Participants will have a chance to share goals and monitoring strategies with the whole workshop group.

3:25–3:30 p.m.
