REL West Webinar:
**High-Quality Tutoring to Accelerate Learning:
A Deeper Dive into Literacy and Mathematics**

November 17, 2021
1:00–2:30 PM Pacific

Participants will:

- Learn about research findings and best practices related to systematic tutoring, focused on math and reading outcomes
- Explore key issues with respect to delivery of reading and math tutoring interventions, including tutor selection, instructional content, assessment of student progress, and tutor oversight
- Hear examples of reading and mathematics tutoring as designed by one national service tutoring program and as implemented by program personnel at one district
- Have an opportunity to ask questions and receive resources to guide their own work

Agenda

1:00 PM	**Introductions and Overview**
