

Handout 5: Sharing Jelly Beans

Hector had a bag of jelly beans.

He gave $\frac{1}{4}$ of the jelly beans to Susan.

Then Hector gave $\frac{1}{6}$ of the jelly beans he had left to Pepita.

After giving jelly beans to Susan and Pepita, Hector had 20 jelly beans left in his bag.

How many jelly beans did Hector have at the beginning?

Three Reads

1st Read – Context

The problem is about...

2nd Read – Purpose

I need to...

3rd Read – Information

The important information is...
