

Setting the Foundation for Continuous Improvement

Waypoint 1 – What is our problem of practice?

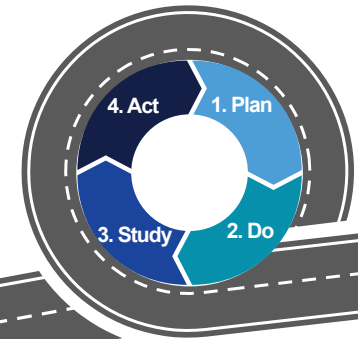

Tips for District Leaders

Look for and leverage existing partnerships that can support continuous improvement efforts in your setting. This provides opportunities to network, share, and learn about problems of practice across your region.

Waypoint 2 – What is the root cause of our problem of practice?

Tips for District Leaders

Student voice is critical to provide context and meaning to data. Reflect on student voice with empathy and understanding to identify the root cause of your problem of practice.

Waypoint 3 – Which evidence-based practice can help us address the root cause of our problem?

Tips for District Leaders

Start focused and small. Rather than implementing multiple strategies and practices, use a continuous improvement cycle on one evidence-based practice. Learn, grow, and expand with each cycle.
