

REL Northeast & Islands collaborates with stakeholders through research alliances and partnerships focused on high-priority issues in education.

ALLIANCES

Alliances include researchers, practitioners, and policymakers from multiple states and territories who seek evidence-based solutions to a broader problem of practice.

OUR ALLIANCES

Early Childhood Workforce Development Research Alliance

Social and Emotional Learning Research Alliance

Professional Learning and Development Research Alliance

Teacher Preparation Research Alliance

PARTNERSHIPS

Partnerships bring researchers together with practitioners and policymakers from a single state or territory, and may bridge different offices to best tackle specific research needs.

OUR PARTNERSHIPS

Connecticut English Learner Research Partnership

Puerto Rico Research Partnership to Promote the Use of Education Data

Massachusetts School Turnaround Research Partnership

Rhode Island Pipelines to College and Career Research Partnership

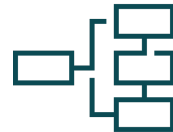

New York Research Partnership for Alternative Pathways

Vermont Universal PreK Research Partnership

Both alliances and partnerships craft research agendas to address high-leverage issues in their states or districts.

The collaborations result in applied research studies, tools, coaching, and trainings that advance data-based decision making.

Alliances and partnerships use and disseminate actionable research to inform education policy and practice.
