New learning series on culturally and linguistically responsive instructional practices to support American Indian English learner students

American Indian students make up almost a fifth of English learners in New Mexico. To assist the state in supporting these students, our Southwest English Learners Research Partnership worked with New Mexico partners at the state, district, and school levels to develop a three-part learning series for teachers on implementing culturally and linguistically responsive practices. The series is available on our website.

Participation in state-funded prekindergarten programs

Early childhood education can help close learning gaps and prepare young children for kindergarten. This infographic highlights strategies that states and districts can use to increase enrollment in state-funded prekindergarten, as well as findings from a REL Southwest study that examined participation trends in Oklahoma's state-funded prekindergarten program.
