

School Improvement Research Partnership Using Logic Modeling for Statewide School Improvement Efforts

Handout 2: Identifying School Improvement Program Components

Directions: Use any resources or materials you brought today to help you answer the following questions about your local school improvement program/initiative.

1. **Why** is this program/initiative needed?
2. **What** resources does your program/initiative utilize?
3. **What** will be done with your program/initiative resources?
4. **What** results/changes will those resources and activities lead to?
5. **Whom** will your program/initiative reach and benefit?

Simple Logic Model Template

Directions: Using the notes you recorded on the previous page, write the problem your program addresses and your school improvement program's inputs, activities/outputs, and outcomes in the boxes below.

	Inputs	Activities/Outputs	Outcomes
