

# Handout: Investigating Your School's Trauma-Sensitive Strategies

## Instructions

Use this handout to document current trauma-sensitive strategies implemented in your school aligned with the three tiers of the multi-tiered system of supports (MTSS) framework (figure 1).

Figure 1: Multi-tiered system of support framework

At each tier of the framework, consider the following questions, which are aligned with each column of the tables on the following pages:

1. What trauma-sensitive strategies are already in place?
2. Who is responsible for implementing each strategy?
3. Does everyone involved with implementing each strategy consistently and reciprocally share information? (Yes/No)
4. What data sources are used to monitor implementation of each strategy?

## Tier 2 Supports

Support	Responsible parties	Communication system	Data sources
<i>What strategies are already in place?</i>	<i>Who is responsible for implementing this strategy?</i>	<i>Do you have consistent and reciprocal information-sharing?</i>  <i>Yes/No</i>	<i>How is this strategy being monitored?</i>

## Tier 3 Supports

Support	Responsible parties	Communication system	Data sources
<i>What strategies are already in place?</i>	<i>Who is responsible for implementing this strategy?</i>	<i>Do you have consistent and reciprocal information-sharing?</i>  <i>Yes/No</i>	<i>How is this strategy being monitored?</i>
