School community: Meeting the needs of students and families

- As a school community, how did you assess and respond to the needs of families?
- Describe the distance learning opportunities, tools, and resources that Oklahoma City Public Schools are providing to families.
- What are your greatest concerns about distance learning for preK and kindergarten students?
- What supports are Oklahoma City Public Schools providing to teachers as they plan for and implement distance learning activities?

Building and maintaining home–school relationships

How do you:

- Maintain open lines of communication between home and school?
- Build relationships with families during this time? What strategies are you using?
- Share information with families about managing their child’s learning activities and their own work responsibilities? Can you share examples?

Teaching and learning at home: A parent's perspective

- What are your greatest concerns?
- How are you managing work and your child's learning?

Where do we go from here?

Given what you know now,
what would you do to
prepare for the possibility
of a similar situation
in the future?
